

A close-up photograph of several purple flowers, likely Salpiglossis, growing in a garden. The flowers are in various stages of bloom, with some fully open and others as buds. The background is a soft-focus field of dry, yellowish-brown grass or straw. The overall lighting is warm and natural, suggesting an outdoor setting.

GOT THE HEART FOR GARDENING?

Come volunteer with us now at the Riviera Beach Heights Community Garden or Singer Island Community Garden. Learn basic gardening and maintenance skills. Rain or Shine!
